Mr. Femi Akindele Remedial Project Manager Kentucky/Tennessee Section U.S. Environmental Protection Agency Region IV 61 Forsyth Street Atlanta, GA 30303

Re: Report of Field Observation – FY07 -Third Quarter (FY07-3Q) Lees Lane Superfund Site, Jefferson County, Kentucky, Administrative Order on Consent, USEPA Docket No-91-32-C

Dear Mr. Akindele:

In accordance with paragraph 11, under <u>Reporting Requirements</u>, of the subject Consent Order and Attachment 1, Operation and Maintenance Plan For Post-Removal Site Control at the <u>Lees Lane Landfill Site</u>. I am enclosing one (1) copy of the <u>Report of Field Observation</u> (Appendix J), identified as Observation Report No FY07-3Q, for your information and files.

Please advise if you have any questions concerning the attached Report of Field Observation for FY07-3Q.

Sincerely,

Richard H. Watkins, Sr.

Infrastructure Liaison

REPORT OF FIELD OBSERVATION LEE'S LANE LANDFILL SITE, LOUISVILLE, KENTUCKY

Observation Report No.: FY07-3Q Date of Observation: 03/28/07

Instruction: If any item is checked yes, provide details of the problem and maintenance

recommendations below and indicate the location of deficiency on the site map

provided.

Comment No.:	Comment

sites.

A-4	Observed that the access road to gas collection Well No. 5 had been remains in good condition with new gravel
B-1	Condition of the Lee's Lane barricade remains unchanged from previous quarterly institutional inspections.
B-2	Condition of the Putnam Avenue barricade remains unchanged from previous quarterly institutional inspections. Intrusions into the landfill site and flood protection levee areas by ATVs from the woods adjacent to the Putnam Avenue barricade are still in evidence. However, the landfill site and flood protection levee are continue to receive surveillance by the

Comment No.

Corrective Action Performed

Metro Louisville Police.

A-4	No corrective action required at this time.
B-1	Continue to observe condition of the Lee's Lane barricade during future quarterly institutional inspections. Schedule painting of Lee's Lane barricade during FY07-4Q.
B-2	Continue to observe condition of the Putnam Avenue barricade during future quarterly institutional inspections. Replace damaged "No Trespass - Hazardous Materials – Keep Out" signs at strategic locations along the access roads and Mill Creek cut-off channel areas in an effort to

discourage ATV intrusions and trespass into the landfill and levee area

Comment No.:	Comment
C-7	Observed tilted well and moisture trap concrete collars for 2, 4, 8, 11, 12, 14, and 16.
C-8	Observed covers missing for moisture traps 26 and 27.
D-3	Observed that protective casings for gas monitoring well are rusting.

Comment No.	Corrective Action Performed
C-7	Schedule resetting of tilted well and moisture trap concrete collars for 2, 4, 8, 11, 12, 14, and 16. weather and scheduling permitting.
C-8	Obtain more replacement covers and install on moisture traps.
D-3	Rescheduled painting of gas monitoring wells protective casings during FY07-4Q.
Comment No.:	Comment
D-8	Monitoring wells tubing, fittings, and valves were not directly observed but any external damage or disturbance to enclosures was evident
E-7	Observed some vegetative growth on portions of the riprap cap and drainage channel slopes.
E-8	Observed that trash and debris build-up on the riprap area has been reduced from prior observations. Trespassers continue to utilize the debris as fuel for small bonfires, thereby eliminating the necessity to remove the debris from the riprap area.
E-12	Observed that survey monument location marker has been pulled from cap.
F-4	Observed areas of inadequate grass cover from intrusion of ATV's.

F-5 Although this quarterly institutional inspection followed a recent rain event, there was no evidence of ponding water except in rutting by ATV, motorbikes.

Corrective Action Performed Comment No. D-8 Monitoring well tubing, fittings, and valves were not directly observed but no external damage or disturbance to enclosures was evident. Condition of tubing, fittings, and valves will be determined during the scheduled FY07-4Q sampling program efforts E-7 Spraying of the riprap drainage channels and riprap cap area should be scheduled prior to the end of FY07-4Q. E-8 No further action required at this time. E-12 Have location marker fabricated, painted and installed prior to end of FY07-4Q. F-4 Monitor areas of inadequate grass cover on future inspections backfill and seed as necessary Condition of ruts left by ATVs and other vehicles should be monitored at F-5 future quarterly institutional inspections and backfilled as necessary.
